

CRYPTO PLEASE

NON-CUSTODIAL CRYPTO PAYMENTS.
INSTANTLY, SECURELY.

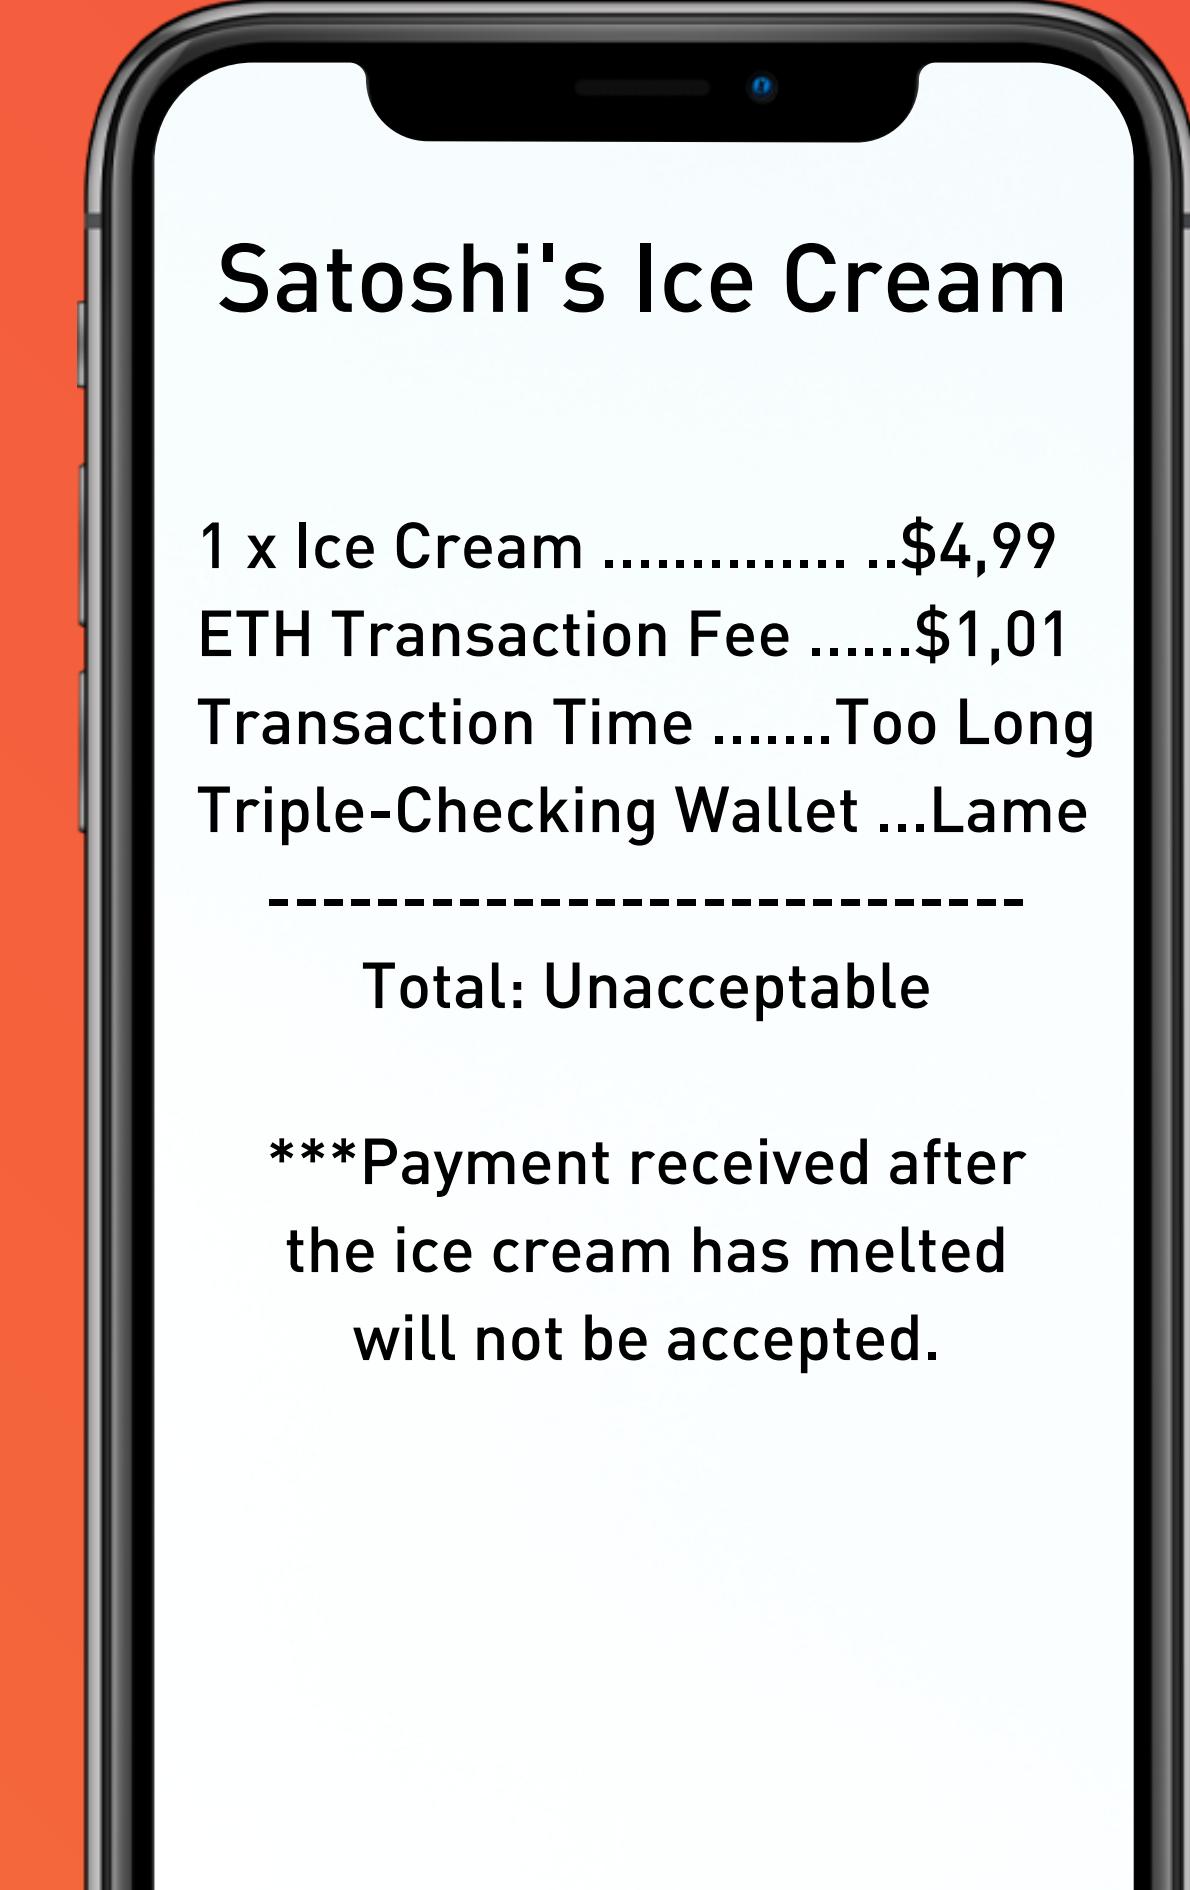

POWERED BY SOLANA

Crypto lacks everyday utility, for everyday people.

ONE OF THE MOST POWERFUL
INVENTION OF THE 21ST CENTURY.
SLOWER THAN CASH.
MORE EXPENSIVE THAN CARDS.

This is why most people choose to use crypto as
a store of value, rather than token of value that
can be easily exchanged for goods and services.

Step 1. Receive crypto**

Step 2. Convert crypto to FIAT*

Step 3. Transfer FIAT to card*

Step 4. Pay with card

*Involves reduced valuation and/or high fees.

**Requires triple checking of wallet address.

Using crypto as
payment requires
as much as
4 steps.

AND OH-SO-MUCH FEES.

OH, AND WE HOPE YOU DON'T COPY-PASTE THE WRONG ADDRESS!

So what
good is an
asset that
is difficult
to use?

LACK OF UTILITY HAS CREATED A BUBBLE AROUND THE CRYPTO COMMUNITY.

Existing crypto users do not pay in crypto due to high fees and bad exchange rates.

New crypto users are intimidated by the barrier to entry.

CUSTODIAL CRYPTO PAYMENT SERVICE PROVIDERS ARE ABUSING THOSE WHO USE CRYPTO.

These services offer a fancy debit card. Yet they give bad exchange rates, take high fees, have complete custody of the user funds, and even charge the merchants for card fee.

KNOCK, KNOCK.
HERE COMES THE SOLUTION.
